***Information Disclosure Statement***

1. Both IDS's have been entered in the case, but appear to be missing. Please send a copy of them with the reply to this communication and they will be considered.

***Priority Documents***

2. The ribbon copy of the foreign patent is missing from the case.

***Election/Restrictions***

3. Restriction is required under 35 U.S.C. 121 and 372.
4. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 12-13, drawn to a non-woven mat.

Group II, claim(s) 14-21, drawn to a method of making a non-woven mat.

Group III, claim(s) 22-29, drawn to an apparatus.

Group IV, claim(s) 30-32, drawn to a "cementitious" board.

5. The special technical feature of group I is a mat comprising an edge margin having a lower "substance" than the remainder of the mat, as recited in claim 12. The forgoing special technical feature is shown in the prior art of Chancellor, Jr. (3793128). Fig. 3 clearly shows a beveled mat having cross direction areas of its edge portions, which would weigh less than the same areas of other portions of the mat. Therefore, there is no unity of invention and lack of unity is held by the Examiner.

6. A telephone call was made to James Slattery on 3/19/01 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1771

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
